DECISION : ☒ NO ACTION INDICATED ☐ ACTION REQUIRED ☐ MEMO ATTACHED

Specify action required or comments below (up to 4000 characters):

Clarification to text in Section 11 Program schema regarding shipment and administration of the vaccine through process developed by the US government. In this amendment, Pfizer-BioNTech submitted their clarification to text in Section 11 Program Schema (initial EUA submission, dated November 20, 2020).

This amendment clarifies that pursuant to the Pfizer contract with the United States Government's agent, Advanced Technology International (MCDC Project Identifier 2011-003), the United States Government will direct the shipment of 100 million finished doses of the Pfizer-BioNTech COVID-19 Vaccine as well as any additional doses resulting from the United States Government's exercise of its option to acquire up to an additional 500 million doses of the Pfizer-BioNTech COVID-19 Vaccine. Pfizer will direct the shipment and administration of any finished doses outside the scope of the aforementioned contractual arrangement with the United States Government.

As the information is administrative in nature, the amendment was not routed to any reviewers in BIRAMS. However, the review team and the management was informed in an email message, on November 25, 2020.
