DECISION : ☒ NO ACTION INDICATED ☐ ACTION REQUIRED ☐ MEMO ATTACHED

Specify action required or comments below (up to 4000 characters):

This amendment contained the updated Briefing Document in support of the VRBPAC meeting held on December 10, 2020. A minor revision was made in Figure 7 to substitute the graph of B1 data in older adults with a graph of the neutralization data for B2 in older adults. The text and the graph are consistent.

No action is needed.
