Dear Healthcare Professional,

Pfizer, Inc. would like to provide you with updated and very important information regarding the Pfizer-BioNTech COVID-19 Vaccine, authorized for emergency use under the Emergency Use Authorization (EUA). On August 23, 2021, FDA approved BioNTech's Biologics License Application (BLA) for COMIRNATY (COVID-19 Vaccine, mRNA), under U.S. License of Investigational New Drug (IND). Pfizer-BioNTech COVID-19 Vaccine are in circulation that were already authorized for use under the EUA. **Some of these lots are now BLA approved for COMIRNATY and are therefore considered "BLA-approved" for individuals 16 years of age and older.** The lots that are BLA-approved may be found at covidvaccine-us.com/resources. For these lots, please refer to the full prescribing information for indication and usage, dosing and safety information. This information can be found by scanning the QR code. **It is imperative that you not discard any available EUA lots. These lots are for use under EUA in individuals 12 years of age and older, and for immunocompromised individuals. You can continue to use these lots.**

Sincerely,

Donna Boyce
