**AGREED INITIAL
PEDIATRIC STUDY PLAN-AGREEMENT**
December 31, 2020

ModernaTX, Inc.,
Attention: Carlota Vinals, PhD
200 Technology Square
Cambridge, MA 02139

Dear Dr. Vinals:

Please refer to your Investigational New Drug Application (IND) submitted under section 505(i) of the Federal Food, Drug, and Cosmetic Act for "Human Coronavirus, (2019-nCoV; Pre-fusion Spike protein; Lipid Nanoparticles; messenger RNA-1273) Vaccine."

We also refer to your email dated December 31, 2020 (3:50 PM EST), containing a courtesy copy of your final Agreed Initial Pediatric Study Plan (iPSP) as requested in the December 23, 2020, correspondence from the Agency.

We have completed our review of your Agreed iPSP and agree with your planned pediatric [study/studies] and your plan to request a deferral of the pediatric assessment for the pediatric population 0 through 17 years of age.

This agreement does not necessarily imply agreement with other contents of the document in its entirety.

Please be advised that this agreement to your Agreed iPSP, and acknowledgment of your intention to request a deferral as stated above, does not constitute the "granting" of such a deferral. This can only occur at such time if/when this investigational product is licensed. A copy of your Agreed iPSP must be included in Module 1 of your Biologics License Application.

In the event that it becomes necessary to make any changes to this "Agreed iPSP" before submission of your Biologics License Application, please contact the Regulatory Project Manager to discuss the appropriate mechanisms for submitting this to FDA and for instructions on identifying your submission in order to ensure timely review. FDA must agree to any amendments to an Agreed iPSP.

If you have any questions, please contact the (b) (6)
