Folder: Diary Dose 1 (1)

Form: Temperature_Day(1/1)

Generated On: 09 Jun 2021 15:07:01

TIMEPOINT

DAY 1, 30 MINUTES AFTER
VACCINATION (AT STUDY
CLINIC)

Thank you for agreeing to participate in this study. To evaluate the safety of the study vaccine you received, it is important to record all reactions that occur for the 7 days following the vaccination, including the day of vaccination.

After you leave the clinic, please try to complete the eDiary every evening for the 7 days. If you miss a day, you will have up until noon the next day to enter your symptoms from the previous day. If any symptoms are continuing on Day 7, or if you did not complete assessments on Day 7, you will receive alerts from the Diary app each day to confirm and enter any symptoms that continue beyond Day 7.

Please contact the study doctor if you have any concerning changes to your health. Concerning changes would include an issue that requires a visit to a healthcare provider such as a doctor, hospital, emergency room or urgent care; any underarm swelling/tenderness within the 7 days from receiving the vaccination or any symptom you perceive as severe.

Please record your temperature each day. If you measure your temperature more than once on a given day, please report the highest temperature for that day.

If your temperature is equal to or over 100.4°F at Day 7, you will be prompted by the app each day after Day 7 to confirm temperature until it has returned to below 100.4°F.

If you take any medication for pain or fever, you will be asked whether it was to TREAT pain or fever that has already occurred, or to PREVENT pain or fever from occurring. Please report any medications taken to the study staff at your next phone call or clinic visit, whichever is sooner.

You will also be asked to measure injection site redness and swelling/hardness using the ruler provided.

Was **TEMPERATURE** taken?

Yes ☒

No ☐

Please record your **TEMPERATURE** in °F

98.1 °F

Was any **MEDICATION TAKEN today for pain or fever?**

Yes ☐

DAY 1, AFTER VACCINATION
(AT HOME)

Thank you for agreeing to participate in this study. To evaluate the safety of the study vaccine you received, it is important to record all reactions that occur for the 7 days following the vaccination, including the day of vaccination.

After you leave the clinic, please try to complete the eDiary every evening for the 7 days. If you miss a day, you will have up until noon the next day to enter your symptoms from the previous day. If any symptoms are continuing on Day 7, or if you did not complete assessments on Day 7, you will receive alerts from the Diary app each day to confirm and enter any symptoms that continue beyond Day 7.

Please contact the study doctor if you have any concerning changes to your health. Concerning changes would include an issue that requires a visit to a healthcare provider such as a doctor, hospital, emergency room or urgent care; any underarm swelling/tenderness within the 7 days from receiving the vaccination or any symptom you perceive as severe.

Please record your temperature each day. If you measure your temperature more than once on a given day, please report the highest temperature for that day.

If your temperature is equal to or over 100.4°F at Day 7, you will be prompted by the app each day after Day 7 to confirm temperature until it has returned to below 100.4°F.

If you take any medication for pain or fever, you will be asked whether it was to TREAT pain or fever that has already occurred, or to PREVENT pain or fever from occurring. Please report any medications taken to the study staff at your next phone call or clinic visit, whichever is sooner.

You will also be asked to measure injection site redness and swelling/hardness using the ruler provided.

Was **TEMPERATURE** taken? Yes ☒ No ☐

Please record your **TEMPERATURE** in °F 98.2 °F

Was any **MEDICATION TAKEN today for pain or fever?** Yes ☐ No ☒

Please confirm reason for pain or fever medication (may select more than one):

TIMEPOINT

DAY 1, 30 MINUTES AFTER
VACCINATION (AT STUDY
CLINIC)

Thank you for agreeing to participate in this study. To evaluate the safety of the study vaccine you received, it is important to record all reactions that occur for the 7 days following the vaccination, including the day of vaccination.

After you leave the clinic, please try to complete the eDiary every evening for the 7 days. If you miss a day, you will have up until noon the next day to enter your symptoms from the previous day. If any symptoms are continuing on Day 7, or if you did not complete assessments on Day 7, you will receive alerts from the Diary app each day to confirm and enter any symptoms that continue beyond Day 7.

Please contact the study doctor if you have any concerning changes to your health. Concerning changes would include an issue that requires a visit to a healthcare provider such as a doctor, hospital, emergency room or urgent care; any underarm swelling/tenderness within the 7 days from receiving the vaccination or any symptom you perceive as severe.

Please record your temperature each day. If you measure your temperature more than once on a given day, please report the highest temperature for that day.

If your temperature is equal to or over 100.4°F at Day 7, you will be prompted by the app each day after Day 7 to confirm temperature until it has returned to below 100.4°F.

If you take any medication for pain or fever, you will be asked whether it was to TREAT pain or fever that has already occurred, or to PREVENT pain or fever from occurring. Please report any medications taken to the study staff at your next phone call or clinic visit, whichever is sooner.

You will also be asked to measure injection site redness and swelling/hardness using the ruler provided.

TIMEPOINT

DAY 4

Thank you for agreeing to participate in this study. To evaluate the safety of the study vaccine you received, it is important to record all reactions that occur for the 7 days following the vaccination, including the day of vaccination.

After you leave the clinic, please try to complete the eDiary every evening for the 7 days. If you miss a day, you will have up until noon the next day to enter your symptoms from the previous day. If any symptoms are continuing on Day 7, or if you did not complete assessments on Day 7, you will receive alerts from the Diary app each day to confirm and enter any symptoms that continue beyond Day 7.

Please contact the study doctor if you have any concerning changes to your health. Concerning changes would include an issue that requires a visit to a healthcare provider such as a doctor, hospital, emergency room or urgent care; any underarm swelling/tenderness within the 7 days from receiving the vaccination or any symptom you perceive as severe.

Please record your temperature each day. If you measure your temperature more than once on a given day, please report the highest temperature for that day.

If your temperature is equal to or over 100.4°F at Day 7, you will be prompted by the app each day after Day 7 to confirm temperature until it has returned to below 100.4°F.

If you take any medication for pain or fever, you will be asked whether it was to TREAT pain or fever that has already occurred, or to PREVENT pain or fever from occurring. Please report any medications taken to the study staff at your next phone call or clinic visit, whichever is sooner.

You will also be asked to measure injection site redness and swelling/hardness using the ruler provided.

SUBJECT FELT NAUSEOUS AND UNWELL AND SOUGHT MEDICAL ATTENTION. PER HOSPITAL SUMMARY, "PATIENT PRESENTED WITH HISTORY OF CONSTIPATION WITH HEMATEMESIS X1 WITH PERSISTENT NAUSEA, FOUND TO HAVE SIRS WITH LEUKOCYTOSIS TO 20 AND TACHYCARDIA. HE WAS TREATED WITH ANTIEMETICS BUT HAD PERSISTENT SYMPTOMS FOR 6 DAYS, UNTIL HE FINALLY HAD A BM AT WHICH POINT HIS NAUSEA WAS RELIEVED. DURING THIS TIME HE HAD SEVERAL EPISODES OF HYPERTENSION WITH SBP > 200, REQUIRING HYDRALAZINE, IN ADDITION TO A FIB WITH RVR THAT RESPONDED TO METOPROLOL. GIVEN THE PATIENT'S SYMPTOMS AND H/O AAA, HE RECEIVED CXR, CT OF THE HEAD, CHEST, AND NECK; IMAGING WAS UNREMARKABLE ASIDE FROM MILD ESOPHAGITIS. DURING THIS TIME HE REPORTED GENERAL ANXIETY, WHICH WAS THOUGHT TO CONTRIBUTE TO HIS SYMPTOMS, SO HE STARTED

User entered 'Subject felt nauseous and unwell and sought medical attention. Per hospital summary, "patient presented with history of constipation with hematemesis x1 with persistent nausea, found to have SIRS with leukocytosis to 20 and tachycardia. He was treated with antiemetics but had persistent symptoms for 6 days, until he finally had a BM at which point his nausea was relieved. During this time he had several episodes of hypertension with SBP > 200, requiring hydralazine, in addition to A fib with RVR that responded to metoprolol. Given the patient's symptoms and h/o AAA, he received CXR, CT of the head, chest, and neck; imaging was unremarkable aside from mild esophagitis. During this time he reported general anxiety, which was thought to contribute to his symptoms, so he started on Buspar. Etiology of his nausea remains unknown but may be impacted by his hypertension, A fib with RVR, anxiety, and history of marijuana use with concern for cannabinoid hyperemesis syndrome. " Subject did not inform site of hospitalization at the time of event or during Day 22 Safety Call, but notified the PI when coming in for Visit 2. PI does not believe this is related to IP, but elected to delay the second dose.'	(b) (4), (b) (6)	26 Aug 2020 19:37:41

[Narrative](#)

Audit	User	Time (GMT)
User entered 'Subject felt nauseous and unwell and sought medical attention. Per hospital summary, "patient presented with history of constipation with hematemesis x1 with persistent nausea, found to have SIRS with leukocytosis to 20 and tachycardia. He was treated with antiemetics but had persistent symptoms for 6 days, until he finally had a BM at which point his nausea was relieved. During this time he had several episodes of hypertension with SBP > 200, requiring hydralazine, in addition to A fib with RVR that responded to metoprolol. Given the patient's symptoms and h/o AAA, he received CXR, CT of the head, chest, and neck; imaging was unremarkable aside from mild esophagitis. During this time he reported general anxiety, which was thought to contribute to his symptoms, so he started on Buspar. Etiology of his nausea remains unknown but may be impacted by his hypertension, A fib with RVR, anxiety, and history of marijuana use with concern for cannabinoid hyperemesis syndrome. " Subject did not inform site of hospitalization at the time of event or during Day 22 Safety Call, but notified the PI when coming in for Visit 2. PI does not believe this is related to IP, but elected to delay the second dose.'	(b) (4), (b) (6)	26 Aug 2020 19:40:28

User opened query ' PV Query: "Leukocytosis to 20" was reported. Please report what 20 was referencing. If it is a laboratory value, please provide date, test name, units and reference ranges as applicable.' (Site from Safety).		13 Nov 2020 15:16:21
User entered 'Subject felt nauseous and unwell and sought medical attention. Per hospital summary, "patient presented with history of constipation with hematemesis x1 with persistent nausea, found to have SIRS with leukocytosis to 20 and tachycardia. He was treated with antiemetics but had persistent symptoms for 6 days, until he finally had a BM at which point his nausea was relieved. During this time he had several episodes of hypertension with SBP > 200, requiring hydralazine, in addition to A fib with RVR that responded to metoprolol. Given the patient's symptoms and h/o AAA, he received CXR, CT of the head, chest, and neck; imaging was unremarkable aside from mild esophagitis. During this time he reported general anxiety, which was thought to contribute to his symptoms, so he started on Buspar. Etiology of his nausea remains unknown but may be impacted by his hypertension, A fib with RVR, anxiety, and history of marijuana use with concern for cannabinoid hyperemesis syndrome. " Subject did not inform site of hospitalization at the time of event or during Day 22 Safety Call, but notified the PI when coming in for Visit 2. PI does not believe this is related to IP, but elected to delay the second dose.'		26 Aug 2020 19:41:33
